GRC[®] **Ultra**
PASTILLAS DE FRENO PREMIUM

MAT Holdings Inc.

Soluciones automotrices

Líder fabricante mundial de componentes para el Sistema de frenos, **MAT Holdings** es el único proveedor global que ofrece shims, zapatas, herrajes y productos de fricción desde una misma organización.

Con una larga historia en el mercado de fricción de **Equipo Original en Europa**, el grupo tiene varios años de experiencia internacional en el desarrollo e ingeniería de componentes para el sistema de frenos, tecnología y plantas de manufactura para producir productos de la más alta calidad para el mercado.

Todas las pastillas de freno están fabricadas para una larga duración. Las nuestras están fabricadas para durar más.

Diseños de shims a la medida para cada pastilla, formulaciones específicas para cada aplicación que igualan o sobrepasan los requerimientos de **Equipo Original**, zapatas de acero galvanizado que evita daños por corrosión y un control de ruido mejorado son las características de nuestras pastillas. Finalmente probamos y validamos

rigurosamente todos nuestros diseños. Es nuestro deber y es su garantía que cada pastilla que fabricamos ofrece la calidad y rendimiento que espera del producto GRC Ultra.

CALIDAD. DURABILIDAD. Más allá de los frenos.

Con una plantilla de más de 15,000 empleados alrededor de todo el mundo, **MAT Holdings** también ofrece una gran variedad de productos para sus clientes, desde Iluminación y Plafonería para Equipo Pesado y productos para el cuidado del auto hasta compresores de uso industrial bajo las marcas Blazer, Detailer's Choice e Industrial Air.

GRC[®] Ultra
PASTILLAS DE FRENO PREMIUM

DESARROLLADAS
PARA UN DESEMPEÑO
DE **EQUIPO ORIGINAL**

Todas las pastillas de freno GRC Ultra son diseñadas para cumplir o exceder el desempeño de Equipo Original. Esto significa que ¡estás frenando con el máximo poder disponible en el mercado!

FORMULACIÓN SEMI-METÁLICA

Diseñadas para cubrir los requerimientos de Equipo Original en diseño y desempeño.

Con materiales de fricción semi-metálicos avanzados y diseñados para ofrecer frenadas rápidas y silenciosas.

FORMULACIÓN CERÁMICA

Diseñadas para cubrir los requerimientos de Equipo Original en diseño y desempeño.

Con materiales de fricción cerámicos avanzados y diseñados para ofrecer frenadas suaves y silenciosas así como bajos residuos de polvo.

Las Pastillas de Freno Ultra Premium™

GRC® Ultra

PASTILLAS DE FRENO PREMIUM

Incluyen las ranuras y chaflanes así como las múltiples formulaciones necesarias para igualar o superar los requerimientos de tu vehículo.

También incluyen shims similares a los de Equipo Original que mejoran significativamente el control de ruidos y vibraciones, así como zapatas de acero galvanizado para una resistencia a la corrosión de nivel superior.

LA RESISTENCIA ESTÁ EN LOS DETALLES

El diseño de la fricción ofrece mayor disipación de calor y frenadas suaves

POTENCIA DE FRENADO

Nuestras pastillas ofrecen múltiples formulaciones que igualan los requerimientos de frenado del vehículo.

CONTROL DE RUIDO MEJORADO

Pastillas que incluyen shims similares a EO para un mejor control de ruidos. Ahora puedes disminuir el ruido e incrementar el desempeño.

RESISTENCIA SUPERIOR A LA CORROSIÓN

Placa posterior de acero galvanizado para mejor resistencia a la corrosión. Esto ayuda a extender la vida de tus frenos.

GRC[®] Ultra

PASTILLAS DE FRENO PREMIUM

El ruido en el sistema de frenos es un problema que a nadie le gusta. Las pastillas de freno GRC Ultra son el mejor método para resolverlo. Están diseñadas para ofrecer un frenado extremadamente suave y silencioso así como bajos residuos de polvo y una vida útil prolongada.

→ Materiales de fricción semi-metálicos y cerámicos avanzados y shims a la medida que amortiguan las vibraciones y reducen ruidos.

→ Zapata posterior de acero galvanizado diseñada para prevenir la corrosión para una vida prolongada.

→ Ranuras y chaflanes en el material de fricción para un óptimo desempeño.

→ Kits de herrajes incluidos en el 85% de los números de parte disponibles en el programa.

Desarrolladas para un Desempeño de equipo original

GRC[®] Ultra

PASTILLAS DE FRENO PREMIUM

Todas las pastillas de freno GRC Ultra son diseñadas para cumplir o exceder el desempeño de Equipo Original. Esto significa ¡que estás frenando con el máximo poder disponible en el mercado!.

Los sistemas de frenos son diseñados para entregar la fuerza de frenado que cada aplicación requiere. Todos nuestros diseños son resultado de un balance entre desgaste y desempeño.

Es por ello que GRC Ultra te ofrece la formulación que tu auto requiere:

- Cerámicas para vehículos de rango medio y alto.
- Semi-Metálicas para vehículos compactos y subcompactos, carga ligera y Heavy Duty.

Las formulaciones de GRC Ultra garantizan un desempeño superior al de Equipo Original gracias a las materias primas empleadas para su fabricación.

Usamos la más avanzada tecnología en nuestros procesos de fabricación para garantizar el más alto desempeño y el menor desgaste de nuestras pastillas de freno.

Además, las balatas GRC Ultra son las únicas en el mercado con diseños especiales de shims de 3 capas que absorben las vibraciones y lubricantes especiales en el material de fricción.

Ambas características ofrecen frenadas más suaves y silenciosas que cualquier otra pastilla de freno en el mercado.

¡Con GRC Ultra tienes lo que tu auto y tú necesitan para llegar ¡más lejos!

MAT HOLDINGS, INC.

Consejos de Instalación

DESMONTAJE

1. Desmonte los componentes de sujeción de las pastillas (e.g. bujes, seguros, tornillos) y verifique que se encuentren en buen estado.
2. Evite el paso del líquido de frenos hacia el depósito, mediante un ahorcador en la manguera del cáliper.
3. Para regresar el pistón a su alojamiento, conecte una manguera del purgador al recipiente de recuperación; abra el purgador, empuje el pistón y cierre el purgador.
4. No permita que el cáliper cuelgue de la manguera, utilice un gancho para sujetarlo.
5. Si existe desgaste irregular en las áreas de fricción de las pastillas, identifique la causa y corrija el problema antes de instalar las pastillas nuevas.

NOTA: la lubricación adecuada de las áreas de contacto del cáliper con las pastillas y los bujes del cáliper, evitan el desgaste prematuro, el sobrecalentamiento de las pastillas y garantizan una mayor eficiencia de frenado.

MONTAJE

1. Para aflojar y apretar los tornillos, utilice herramienta adecuada y no exceda el torque especificado en el manual del Equipo Original.
2. Las pastillas de freno no se deben mover libremente sobre las guías, aplique una ligera capa de grasa en las correderas del cáliper y en los elementos móviles.
3. Revise que las lánas antiruido no estén dañadas; en caso de que las lánas sean intercambiables y se encuentren en buen estado, puede reusarlas con las pastillas nuevas.
4. Algunos vehículos utilizan pastillas unidireccionales, las cuales pueden contar con una marca en forma de flecha para indicar el sentido de giro del rotor.

5. Los solventes derivados del petróleo, aceites y grasas no deben tener contacto con las áreas de fricción, discos, cáliper, mangueras o ligas, ya que le pueden provocar daño a estos componentes; no utilice ninguna pieza que haya sido contaminada.
6. Después de ajustar el freno de mano, las ruedas traseras deberán girar libremente.
7. Revise que el líquido de freno esté limpio y en su nivel correcto; de ser necesario rellene sin rebasar el límite máximo.
8. Cambie el líquido del sistema de frenos cada 12 meses o 20,000 kilómetros, de acuerdo a las especificaciones del fabricante.
9. Antes de encender el motor, pise varias veces el pedal de forma lenta y pausada; aplique una presión uniforme sobre el pedal, la altura no debe variar.

ADVERTENCIA ACERCA DEL CONTENIDO

La exposición a materiales que contengan fibras puede ser un riesgo para la salud. Al manejar material de fricción, tome las siguientes precauciones:

- Evite que el polvo se mezcle con el aire.
- No respire el polvo de los materiales de fricción.
- No limpie el polvo con aire comprimido.
- En el lugar donde se maneja el material de fricción debe haber un sistema de recolección de polvo.
- Use una aspiradora equipada con sistema de vacío o un método de limpieza húmedo.
- Deseche el polvo dentro de un contenedor sellado.
- Al manejar material de fricción, utilice mascarilla.

Señales de Advertencia del Sistema de Frenos

TRACCIÓN

El automóvil se mueve hacia un lado al aplicarse los frenos. Puede deberse a neumáticos poco inflados o es una señal de posibles problemas con los frenos.

AGARRE

Frenos "sensibles" que agarran con una mínima presión. Puede indicar un problema tan simple como forros contaminados con grasa o aceite o tan graves como un componente suelto o roto que podría fallar en una emergencia.

ARRASTRE

Frenos que se atascan, ruedas calientes o motor que parece haber perdido potencia. Los frenos pueden tener problemas en activarse; esto podría causar que el fluido alcance su punto de ebullición y que se amortigüe el frenado.

CHIRRIDO

Los frenos deben operar silenciosamente. Cualquier ruido, chirrido, chillido, rechinado, gemido, traqueteo, martilleo o golpe significa que sus frenos necesitan atención.

PEDAL BAJO

Los frenos deben operar silenciosamente. Cualquier ruido, chirrido, chillido, rechinado, gemido, traqueteo, martilleo o golpe significa que sus frenos necesitan atención.

PEDAL DURO

El pedal casi toca el piso antes de que funcionen los frenos. Puede activar la luz de advertencia A freno. El problema puede requerir un simple ajuste o indicar algo más grave.

KILOMETRAJE

Los frenos no están a la vista y es fácil olvidarse de ellos. Recuerde los suyos al menos una vez al año. Incluso si no está presente ninguno de los síntomas anteriores. Una revisión de seguridad de 15 minutos realizado por un técnico competente puede alertarle de problemas antes de que estos se tornen peligrosos.

VIBRACIÓN

Requiere una presión extrema para que funcionen los frenos. Puede indicar problemas con los frenos hidráulicos, restricciones en las líneas hidráulicas, congelamiento de los Calipers o cilindros de rueda o daños en los forros de los frenos.

ADVERTENCIA DEL FRENO **LUZ**

El freno de emergencia está activado; o tiene una caída importante de presión hidráulica. Un lado de su sistema de frenado ha fallado y deberá recibir servicio inmediatamente.

ABS PERMANENTEMENTE ENCENDIDA **LUZ**

El sistema ABS está inoperante, pero el freno básico seguirá funcionando. Haga que un técnico revise el vehículo tan pronto como sea posible.

Una Compañía. Muchas Soluciones.

Garantía

GRC[®] Ultra

PASTILLAS DE FRENO PREMIUM

Están garantizados hasta 6 meses o 10,000 kilómetros, lo que ocurra primero a partir del día de su instalación, contra cualquier defecto de fabricación, materiales o mal funcionamiento que se presente durante el uso del vehículo operado en condiciones normales.

En vehículos ligeros para uso comercial, la garantía será limitada a 60 días.

APLICACIÓN INCORRECTA

MATMEX diseña y fabrica pastillas de freno bajo especificaciones de Equipo Original para cada vehículo; cualquier cambio, adaptación o modificación anula la garantía de este producto.

El presente catálogo ha sido elaborado con gran cuidado habiéndose verificado la exactitud de los datos en él contenidos, sin embargo, MATHOLD MEXICO no se hace responsable por posibles datos erróneos o incompletos.

SOPORTE TÉCNICO

¿DUDAS? CONSULTE A LOS EXPERTOS

01 800 12 27 846 | www.grcautopartes.com.mx

Con el SOPORTE TÉCNICO, usted nunca recibirá mensajes grabados, solamente respuestas de nuestros expertos. Si tiene alguna pregunta para nuestro equipo de Soporte Técnico, llame sin costo o visite el sitio web www.grcautopartes.com.mx y consulte las preguntas frecuentes, artículos, boletines técnicos y videos detallados y obtener las respuestas que necesita para hacer el trabajo correctamente.
